【主な経歴】

I have a Bachelor's Degree in Game Design from Nottingham Trent University. I have worked many TV and online broadcast live events as a host and as a commentator. I have also taught English here in Japan for 6 months.

【職務経歴】

I have hosted and been on camera many times, as well as commentated live video game events. I am used to talking on and off script for hours on end, and have entertained audiences in the thousands. I have multiple years of experience as a commentator and narration comes naturally to me!

【その他コメント】

I live in Yokohama-shi at the moment, but Tokyo is easy enough for me to get to.
